187TH ENVIRONMENTAL COMMITMENT STATEMENT

ENVIRONMENTAL MANAGEMENT SYSTEM (EMS)

Executive Order 13423

"Strengthening Federal Environmental, Energy, and Transportation Management"

The 187th Fighter Wing is committed to continued excellence, leadership, and stewardship in protecting the environment. Environmental protection is a primary management responsibility as well as the responsibility of every worker and supplier. Our vision is to reduce waste through pollution prevention, continually improving our environmental performance by minimizing our **impacts**, setting and reviewing **objects & targets** on the manmade and natural environment, and maintain compliance with all federal, state, local and other environmental regulations at all times.

Our basic tenets include:

Environmental protection is a line responsibility and an important measure of worker performance. Every worker is responsible for environmental protection in the same manner as personnel and worker safety.

Compliance with all federal, state, and local environmental regulations is paramount in all we do, but additional emphasis will be placed on reducing our **impact** on clean air and waters in the local area.

We are committed to reducing or eliminating the generation of waste. This consideration will be integrated in all future decision-making.

Energy conservation and energy reduction will be an integral design element for all new construction, renovations and Master Planning.

Vision of the 187th Fighter Wing

We will execute our mission, meet all challenges, and serve our state and nation with the honor, professionalism, patriotism, and selflessness epitomized by the Tuskegee Airmen.

Mission of the 187th Fighter Wing

To provide the nation with a superior F-16C+ Aviation Package, RC-26B Intelligence, Surveillance, and Reconnaissance platform, and Expeditionary Combat Support functions organized, trained, and equipped for rapid world-wide combat deployment, domestic relief, and law enforcement operations.
